

WORKSHOP ON MAPPING CHRISTIAN HEALTH SERVICES, 10 – 11 October 2017

Venue:

Ecumenical Centre, Visser 't Hooft Hall, 1 Route des Morillons, 1218 Grand Saconnex, Switzerland

Objectives:

The aim of the workshop is to discuss and develop a framework for mapping Christian health services globally with respect to SDG 3. It will be guided by the following questions and considerations:

1. What is the purpose, added value or potential utility of the data to Churches, governments and development agencies?
2. In light of existing DHIS-2 and other data systems, what additional data do we need?
3. What would be the optimum methodology and technology for the mapping?
4. How should the data be managed to ensure both access and security?
5. What can we learn from previous initiatives?

Annotated Agenda:

Day 1	
09:00 – 09:10	Opening prayer
