Communications and Advocacy

October 2018 Cambodia in-person meeting convened

Advocacy and scoping study dissemination to be planned for 2019

Challenges:

- Due to financial limitations the scoping study was delayed and due to time capacity the first members meeting was delayed following the launch.
- To be consistent and meaningful in meetings and to ensure that there is growth of members particularly in the global south, the hub co-chairs will likely need some administration/ communications support following the scoping study to make contact with identified new members. They are investigating options for this including student, volunteer or paid support.

Next Steps and 2019 Opportunities

- Launch of new Regional JLI AHT-MS Hubs located in key areas including Asia, and potentially in Americas and Africa
- Research workshops to address each of the three focuses of the scoping study in different locations (year 2)
- Bring together academics, policy makers and practitioners to: share research and best practice, identify gaps, develop case studies
- Media Engagement Strategy with 'Religion Media Centre', publication in appropriate academic journals and public engagement tailored to audiences
